Spaceship G1 welcomes you aboard

Guitarminator - the alien - invites you for a journey through his x-tra-terrestrial guitar universe. Pump up the volume and be taken across psychedelic planets and beyond worlds filled with beats. And be brought back to Earth by heavy guitar sounds. Along the way you will get to know him. A hint of ego, kind of loose and with a considerable amount of irony. This stylistic, facet rich debut album is an extension of the Guitarminator-Multi-Media-Show. A complex Live act, a Psy-Musical experience.

▼ himself prefers to call it Psychedelic-guitar-trance. With this album he brings his 30-year musical experience to the next level.

After successful releases with DJ Cosma (Israel), DJ Shiva-Andy (Shiva Space Technology), DJ Shiva Jorg (Shiva Space Japan) and DJ Jan Osh (Lemurians) many more releases followed on compilations by Yellow Sunshine Explosions and Quatrophon.

Following his debut EP Darkforce now get ready for the Show-Music-Album G1.

As a bonus you get a **VCD-Video** supplement that offers 6 minutes of further insight in his multimedia cosmos. Informative and fun.

Now boarding.
